SUMMARY

Frontend Developer with over 3 years of experience crafting fast, responsive, and user-focused web interfaces. Proficient in HTML, CSS, JavaScript, and modern UI frameworks, with growing expertise in React.js and TypeScript. Strong understanding of web performance optimization, including caching strategies and automated CI/CD deployment. Passionate about building clean, scalable, and accessible interfaces while collaborating across teams to deliver exceptional user experiences.

EXPERIENCE

Frontend Developer

TechTrack Software Solutions

Oct 2023 – June 2024, string

- Developed responsive, cross-browser web applications using HTML, CSS, JavaScript, Bootstrap, and jQuery.
- Collaborated closely with UI/UX designers and backend developers to deliver pixel-perfect, data-driven interfaces.
- Implemented client-side caching logic (LocalStorage, SessionStorage) to reduce redundant API calls and improve load performance.
- Configured CI/CD pipelines for auto-deployment upon Git commits, reducing delivery time and human error.
- Designed and optimized reusable UI components with a focus on maintainability and performance.
- Debugged and optimized pages using browser DevTools to ensure consistent rendering and fast performance.
- Participated in version control best practices, including branch management, conflict resolution, and code reviews.

PROJECT

React Practice Projects (In Progress)

string

- Building small web apps using React.js and TypeScript to enhance state management, routing, and performance optimization skills.

Personal Portfolio

maum229.site

- Developed and deployed a personal portfolio website to showcase projects and UI design work using HTML, CSS, and JavaScript. Integrated Git-based deployment pipeline for automatic updates.

EDUCATION

LL.B

University of the Punjab, Lahore

SKILLS

Version Control & Deployment: Git, GitHub, CI/CD Automation, DevOps Fundamentals

Performance & Optimization: Caching Strategies, LocalStorage / SessionStorage, Page Speed Optimization, Lazy Loading

Frameworks & Libraries: React.js (in progress), jQuery, AJAX

Frontend: HTML5, CSS3, JavaScript (ES6+), Bootstrap, TailwindCSS, SASS

Other: Web Architecture, Responsive Design, Cross-Browser Compatibility, TypeScript, React Hooks, Context API, State Management, GraphQL

APIs: RESTful API Integration, JSON Data Handling
